

## 2D Shapes

This week, your task is to investigate shapes. Here are 4 2D shapes for you to learn and recognise.

This is a song to help you remember them.

During your daily walk, why not go on a shape hunt? What shapes can you find?

If you have playdough at your home, could you try to make any of the shapes you have been learning?

Draw a picture using shapes, I always like to make a picture of my house or a rocket.

Using bricks/blocks, what can you build? What shapes have you used in your building? How do you know?

When investigating shapes, think about the following:

- The amount of sides the shape has.
- Looking at the shapes in different ways, e.g. upside down
- Try to find big and small shapes.
