

Activity- Read the information about hedgehogs and tell a member of your family the answers to the questions at the end.

All about...

Hedgehogs

Hedgehogs are nocturnal. They come out at

night time. They sleep a lot under bushes

+

and shrubs. A hedgehog has about 5000

sharp spines.

Hedgehogs like to live in wet land,

+

above the ground and under the ground.

Hedgehogs like to eat snails, frogs,

+

insects, worms and snakes! When hedgehogs

are scared they curl up into a ball.

When do hedgehogs come out?

What do they like to eat?

Where do they like to live?

How many spines do they have?
