

Step 4: Make Arrays

Varied Fluency 1

There are apples in each row.

There are rows.

Answer

There are **10** apples in each row.

There are **2** rows.

There are 2 counters in each column.
There are 6 columns.

Draw the array.

There are 2 counters in each column.
There are 6 columns.

Draw the array. **Answer**

Use the buttons to make an array representing
 $2 + 2 + 2 + 2 + 2 = 10$.

Use the buttons to make an array representing
 $2 + 2 + 2 + 2 + 2 = 10$. **Answer**

or

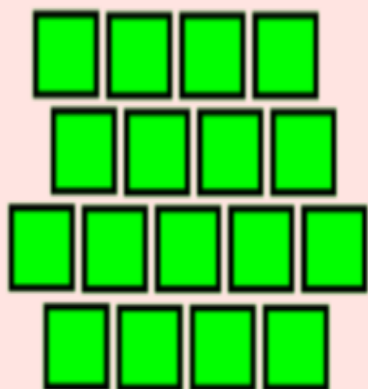

Reasoning and problem solving.

Which array is correct? How do you know?

Reasoning and problem solving.

Which array is correct? How do you know?

Is correct. There 4 columns and 4 rows. The green array has a different amount in the third row.

Reasoning

Which is the odd one out? Why?

$$10 + 10 = 20$$

There are 10 apples in each row. There are 2 rows.

Reasoning answer

Which is the odd one out? Why?

The array is the odd one out as it shows
3 rows of 10 apples.
