

## **Sharing Equally.**

This week, your task is to investigate sharing. This is when you separate objects into equal groups.

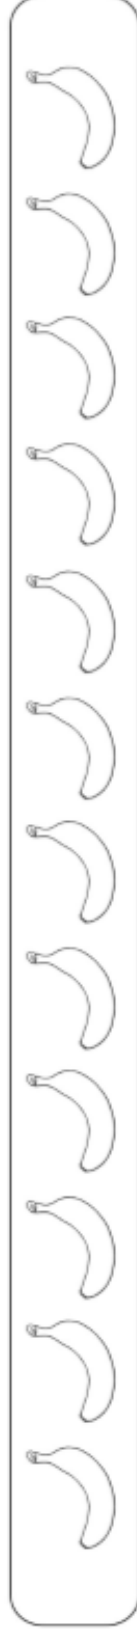

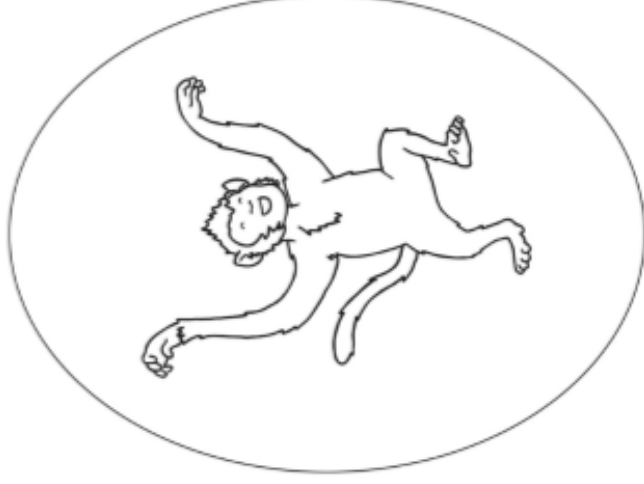

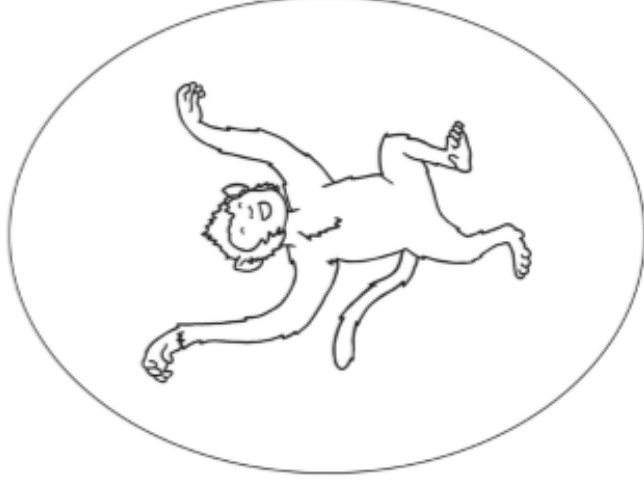

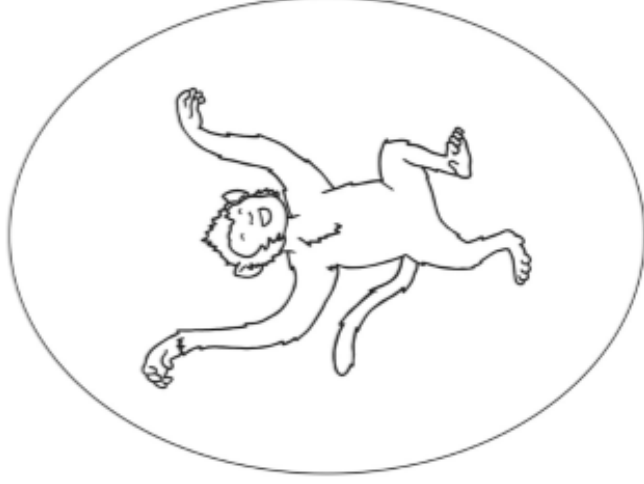

There are some activities for you to try at home. You could ask your grown up to help you understand halving such as:

- One object for them, one for you, one object for another and repeat until all of your objects are gone.
- Use an equal/even amount of objects.
- Children to count the objects in each group and check that all groups have the same number.

# Sharing Bananas

Can you share the bananas equally between the 3 monkeys?

## Sharing at the Teddy Bears' Picnic

The teddy bears are having a picnic. Can you help them share their food so they have the same amount each?
