

Writing

First, use this space below to practise writing your name. If you can, use try writing your name on top of the line.

Make sure you hold your pencil correctly, using 'tripod grip' or 'birdie beak', as it will help you get better control.

When you go on your daily walk, try and find a pretty flower. Once you've chosen what flower you like, bring it home and have a go at

drawing it in the box below. Look carefully at the lines and the shapes you can see on the flower. If possible, use some crayons or felt-tip pens to colour your flower. Don't forget to hold your pencil

correctly, using 'tripod grip' or 'birdie beak'! 

Now have a go at practising the grapheme 'ff', matching the sound we have been learning about in Phonics.

You could use this rhyme for the letter 'f'; 'down the stem and draw the leaves'.

Now try practising your ascender formation... start at the sky and go down to the grass.

There are some great links online to help your child to start mark-making and forming letters.

Meet Squiglet. He will help your child to draw and make marks... even some letter formation.

Fine Motor Activity

To help your child prepare for Reception, please practise building your child's fine motor muscles by helping them gain further strength in their fingers. This week try squeezing objects, such as pegs or snack items!
