

## **Time**

This week, your task is to investigate time.

This includes introducing the vocabulary such as 'first', 'next', 'after' and 'last'.

Also looking at the hands on clocks and watch faces.

Some activities to try are:

- Decide whether you do the activities in the morning or evening/night time
- Singing the days of the week song and putting the days in the correct order
- Have a go at making your own watch
