

## Vets

We are learning about superheroes and we are going to look at real-life superheroes for the next few weeks.

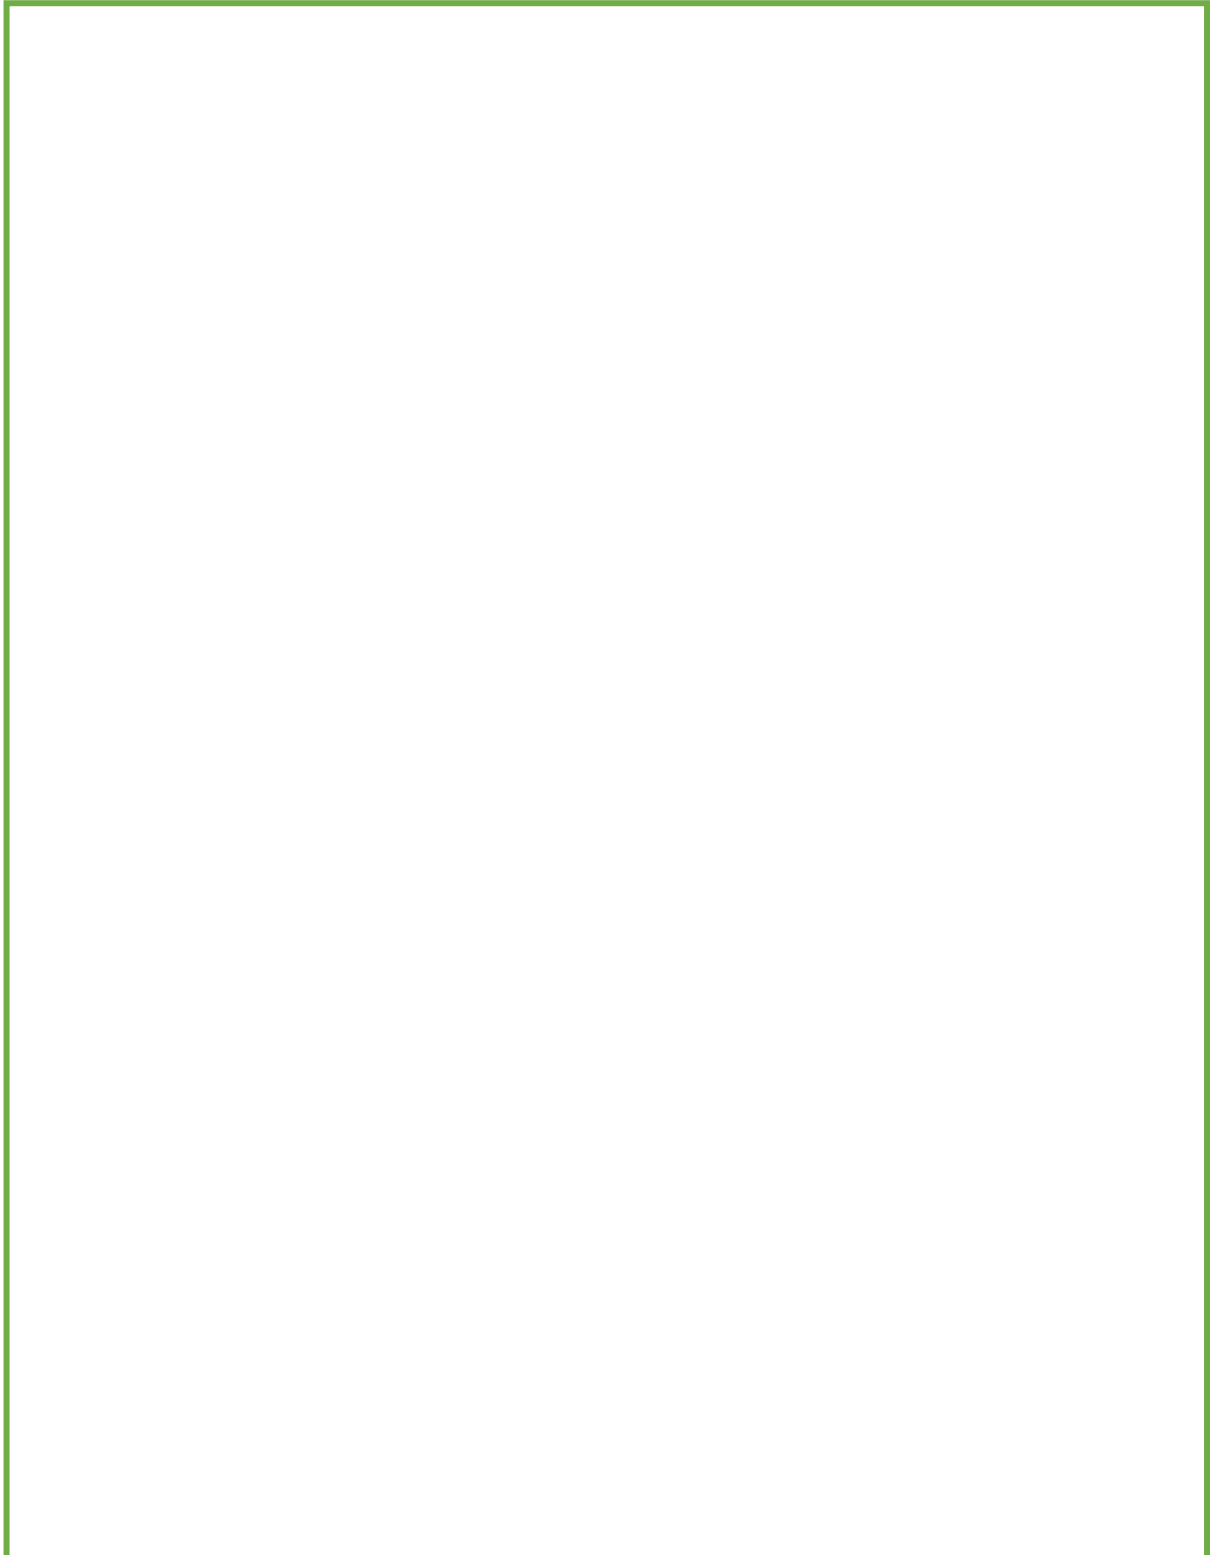

This week we are looking at vets and how to care for animals. They work so hard to help to make our animals better when they are poorly.

Some activities you could try are:

- Share the Zoo Vet story with a grown up
- Create your own zoo
- Writing about how to take care of a cat
- Matching activity to ensure the right animal gets the right object
- Use your toys to pretend to be a vet- you could ask a sibling or grown up to join in, too!

## **Design Your Own Zoo**

- What animals are you going to include?
- What do they need to keep healthy?

A large, empty rectangular box with a green border, intended for students to draw or write their zoo design.

# How to Take Care of a Cat

This is what a cat looks like:

What Cats Eat

Where Cats Live

---

---

# Pets Matching

Draw lines to match the pets to the items they may be associated with.
